

## James Cook

By Jackie Fernandez and Shay Baluyot

Captain James Cook  
Wrote a big book  
That happened to be his journal.

He was born in October  
and three voyages to discover  
is what he used for Great Britain

In 1769,  
He was the first to find  
the islands of New Zealand

His purpose was to observe,  
a solar eclipse,  
by who? By Venus!

Unfortunately,  
on February 14,  
Cook was stabbed by stealth

Hawaiian Natives  
were the cause,  
of James Cook's death.
